Microsoft Campus Agreement - Summary of products covered.

Office: Covers current versions of the full Microsoft Office suite for Windows and Macintosh computers (Word, Excel, PowerPoint, OneNote, Visio, Access, etc.).

Windows Upgrade: Covers upgrade from cheapest version of Windows to any available version, up to the most expensive current version.

Core CAL: "Client Access License" for Exchange, SharePoint, and Windows Server. A CAL is required for each person or device accessing the server.

eCal: Enterprise CAL. Covers enhanced communication and collaboration functionality. Required for Microsoft Office Live Communications Server, Microsoft Windows Rights Management Services, Microsoft Operations Manager Client Operations Management License, Microsoft Security Service Subscription, Office SharePoint Server Enterprise, Exchange Server Enterprise, Office Communications Server Enterprise. Not recommended or required for most users at UBC.

Core CALs are not required for all usersat UBC, unless we decide to offer Exchange and /or SharePoint to all faculty and staff. The business case for a UBC Campus Wide License assumed the license would cover Office, Windows and Core CALs.
